

# DECLARATION

Due to new international tax regulations, Danica Pensjon is obligated to obtain a taxation declaration to uncover if our customers are taxpayers in other countries than Norway or not. This to ensure that Norway fulfill its agreement signed with the USA (by Foreign Account Tax Compliance Act - FATCA) and OECD countries (by Common Reporting Standard - CRS). Norwegian Financial institutions are obligated to identify customers that are taxpayers in other countries and report information about their agreement to the Norwegian taxation office.
